Sound : In the 1920s, the development of electronic sound recording technologies made it practical to incorporate a soundtrack of speech, music and sound effects synchronized with the action on the screen.citation needed The resulting sound films were initially distinguished from the usual silent moving pictures or movies by calling them talking pictures or talkies.citation needed The revolution they wrought was swift. By 1930, silent film was practically extinct in the US and already being referred to as the old medium.citation needed

Impact of the COVID-19 pandemic on cinema : The COVID-19 pandemic has had a substantial impact on the film industry in 2020 and 2021, mirroring its impacts across all arts sectors. Across the world and to varying degrees, cinemas and movie theaters have been closed, festivals have been cancelled or postponed, and film releases have been moved to future dates or delayed indefinitely. Due to cinemas and movie theaters closing, the global box office has dropped by billions of dollars, streaming has seen a significant increase in popularity and the stock of film exhibitors has also dropped dramatically. Many blockbusters originally scheduled to be released since mid-March 2020 have been postponed or canceled around the world, with film productions also halted. This, in turn, has created openings for independent cinema productions to receive wider exposure.1

Other major films have postponed releases in certain countries. The Pixar film Onward, released on the opening March weekend, was not opened in the areas most affected by the coronavirus outbreak while cinemas were closed in China, it also chose not to open in South Korea, Italy or Japan.90 Other March 2020 releases A Quiet Place Part II and Mulan postponed their releases in affected areas, too. This prompted worry that, should March film openings underperform, blockbusters set for release in May specifically DisneyMarvels Black Widow and Universals F9 would move their dates later in the calendar.187 Mulan not opening in China, where it aimed to make most of its money, was particularly concerning,91 especially with the possibility that pirate copies will appear and prevent Chinese moviegoers

from going to see it in cinemas when it is released.9 Comparatively, A Quiet Place Part II had not anticipated a large Chinese draw, as the box office for the first film in the country was only 10% of its total.7
